

## Organic nitrogen fertilizer for the cultivation of mushrooms

CHAMPLUS is a natural nutrition supplement for every mushroom culture, with a number of surprising advantages. The product is a combination of several raw materials, foreseeing not only the need in proteins or amino-acids, but also providing in the extra demand of energy, minerals and spore-elements. It also contains pH-regulating minerals, and the gradual release of the nutrients guarantees a favourable temperature control.

## RENEWED IN COMPOSITION AND PRODUCTION PROCESS!

The improved granulating guarantees a good spreading in the compost, without dust problems.

Champlus for the full grown compost. Best results are achieved by applying 1-1,5 kg CHAMPLUS per square meter.

### CHAMPLUS SR

With a more delayed release of the nutrients, it makes an application possible while spawning in a quantity of about 5-10 kg/ton compost.

#### COMPOSITION

• Moisture	± 7 %
• N-content	± 10 %
• Proteins	± 60 %
• Fat/oil	± 5 %
• Minerals	± 10 %
• Fiber and CH	± 15 %
• Sulfur-amino-acids	± 4 %

## HIGHER YIELD OF BETTER QUALITY MUSHROOMS

CHAMPLUS satisfies and provides a correct nutritional balance and, by the delayed release of the nutrients, a favourable temperature development without danger of overheating, you harvest better quality mushrooms (tight, hard and whole-white) and with a significant higher yield.

Champlus and Champlus SR are available in 25 kg packings, in Big bags and in bulk.

## Natural Product

Composed of natural raw materials, produced without harmful chemical additives. Allowed in ecological culture, free of gen-manipulated raw materials, without formaldehyde and produced according to a complete traceable quality system.

The improved granulation avoids dust problems.

#### CONTROLLED COMPOSITION

In the laboratory, we are steadily looking for new and better formulas, controlling the chemical, physical and microbiological constitution. Because the final products eventually end up in the food chain it is imperative that these fulfil the highest quality requirements. In this way, we are not only in a position to guarantee an optimal quality, but also to follow up immediately the newest branch developments, proved by Renewed Champlus.
